Integrity has a long history of delivering monitoring, evaluation and learning (MEL) projects around the globe.

We assist governments, global organizations and the private sector with a range of services to improve their programming, change their organizations and transform their global footprint and goals. Central to our offer is our deep contextual understanding, our ability to mobilize expertise at a local level and our focus on building sustainable capacity. Our global offices in the UK and USA, and regional hubs in Jordan, Kenya and Pakistan, are strategically located to support and access our clients, partners and programs, enabling Integrity's team to work in partnership and share global knowledge.

We generate evidence through third-party monitoring (TPM), research, learning, and evaluative activities that enhance the ability of portfolio and program teams to respond to delivery risks. We facilitate the integration of evidence and learning using innovative data analytics expertise to generate analysis at project, program, and diplomatic levels. This enables better understanding of collective impact and outcomes against plans.

Our geographic reach and experience, combined with our services and thematic expertise, enable us to bring a detailed analysis and understanding of a wide range of political, economic and social contexts.

Our global and multi-country MEL projects

Peacebuilding Evaluation, Analysis, Research, and Learning (PEARL), USAID Center for Violence and Conflict Prevention, 2022 – 2026

We work with USAID/CVP to design innovative analytical services and learning opportunities for the agency's dynamic global peacebuilding and conflict prevention portfolio. This includes scalable violence and conflict assessments, technical assessments in key issue areas such as atrocity prevention, performance and impact evaluations, learning exchanges, context monitoring, and scenario planning support.

Asia Bureau Monitoring, Evaluation and Learning Support Mechanism (Asia MEL), USAID Asia Bureau, 2023 – 2027

We provide MEL advisory and technical support to USAID's Asia Bureau, 10 bilateral Missions, two regional Missions and five Operating Units in the Indo-Pacific region as they implement key USAID objectives under the United States Government's Indo-Pacific Strategy. The strategy aims to advance a free, open, connected, prosperous, resilient, and secure Indo-Pacific.

Global Monitoring, Evaluation and Learning, UK Conflict, Stability and Security Fund, 2019 – 2023

Integrity leads the GMEL Partnership for the UK's £1.3-billion cross-government UK Integrated Security Fund (UKISF) portfolio, which has broad geographic and thematic reach through over 90 programmes in more than 80 countries and territories. GMEL supports the development of a stronger, more agile and sustainable 'ecosystem' of MEL systems and structures, as well as their application in evidence-informed strategic decision making at a Fund level.

Performance Evaluation of the Better Assistance In Crisis (BASIC) program FCDO, 2020 – 2024

Integrity is evaluating this £20.5-million program, which aims to help people in complex contexts cope with crises by improving the use of social protection approaches. Our three-phase evaluation blends a theory- and case-based approach and employs a mix of quantitative and qualitative data collection and analysis methods.

More ongoing MEL projects

Monitoring, Evaluation and Learning Support (MELS) Activity, USAID South Sudan, 2021 – 2026

Integrity supports the implementation of USAID/South Sudan's Strategic Framework through tailored monitoring and evaluation services to enhance Mission programs. In a dynamic operating environment, our flexible, demand-driven technical, analytic, and advisory support strengthens collaboration, learning, and adapting.

Iraq Monitoring Project (IMP), USAID Bureau for Humanitarian Assistance, 2022 – 2027

Integrity delivers TPM to support the USAID/BHA portfolio in Iraq. The IMP helps increase access to independent, impartial, and timely data for BHA and its Iraq partners, to deepen understanding of the outputs, outcomes, progress, quality, challenges, successes, performance, and lessons learned.

Somalia Monitoring and Learning Project II (SMLP2), USAID Bureau for Humanitarian Assistance, 2022 – 2027

We provide continuous feedback to BHA, implementing partners, and other key stakeholders on project and activity progress, support rapid decision making, and facilitate ongoing learning and adaptation. Central to our approach is a comprehensive learning system to ensure monitoring becomes a tool for adaptive management and implementing partner capacity building.

Evidence for Health, Monitoring, Evaluation, Research and Learning, FCDO, Pakistan, 2024 – 2027

We deliver MERL services for two complementary programmes aimed at strengthening national health security, building a more resilient health system, and improving the equity, equality, efficiency, and coverage of the delivery of health services in Pakistan.
